GENG5505 – Presentation Marking Guide

Oral presentation component
The performance of the student in the presentation will be judged against the following criteria:
- Confidence in presentation (did the speaker show appropriate confidence while presenting, and did he/she use tone of voice and pauses appropriately and effectively?)
- Clarity of Expression (did the speaker speak clearly, without excessive reading from notes and without mumbling or distracting mannerisms?)
- Professionalism of expression (language used in delivering the presentation);
- Adherence to time limits.

Visual presentation component
The visual and supporting materials presented by the student will be judged against the following criteria:
- Slides free of spelling and (gross) grammatical errors;
- Image and font sizes sufficient (including graph and table features);
- Foreground/background color combinations appropriate;
- Images and/or movies and/or other material clearly illustrating points of interest.

Technical Content
The technical content of the presentation will be judged against the following criteria:
- Was the project background illustrated?
- Were the project objectives clearly described and justified?
- Was the project analysis comprehensive, relevant and justified by relevant theory/models/frameworks?
- Were the relevant recommendations presented in a convincing/justified manner and a priority order?
- Overall, did the speaker demonstrate depth of understanding of the work presented?
